## 1. Safety and Security

### Road Safety Awareness Programme

Date : 31/03/2023

The program was initiated to create awareness about the road safety measures so that it will benefit the society on a long run. After reaching the village, volunteers met the members of the village and gave the awareness on road safety and identified the places where accidents are likely to occur. A few places are identified for the event. Some of our Volunteers had met the members who were travelling on the road and gave some precautions about road safety like wearing helmet, don't use phone while driving, don't drink and drive, drive very slow and follow traffic rules, due to which accidents are likely to occur.

They met the people and distributed the pamphlets and made them aware of importance of Road Safety and effect of accidents. Most of the villagers showed a great interest towards Road Safety and they gave an assurance that they will follow the traffic rules while travelling. The people were very interactive and supportive when we were explaining them

Road safety is the prevention of road accidents by obeying the road safety rules and regulations. The most important factor of road safety is the need for skilful and cautious driving so that passengers, pedestrians and drivers stay safe. Developing better roads is also important to avoid road accidents.

Ensuring everyone is safe on the road is important in keeping people's lives safe from accidents. Driving is the standard way of transportation in today's world. If someone injures themselves in a road accident, it can be the result of not following the road safety measures. Hence, it is important to follow road safety rules and drive safely.

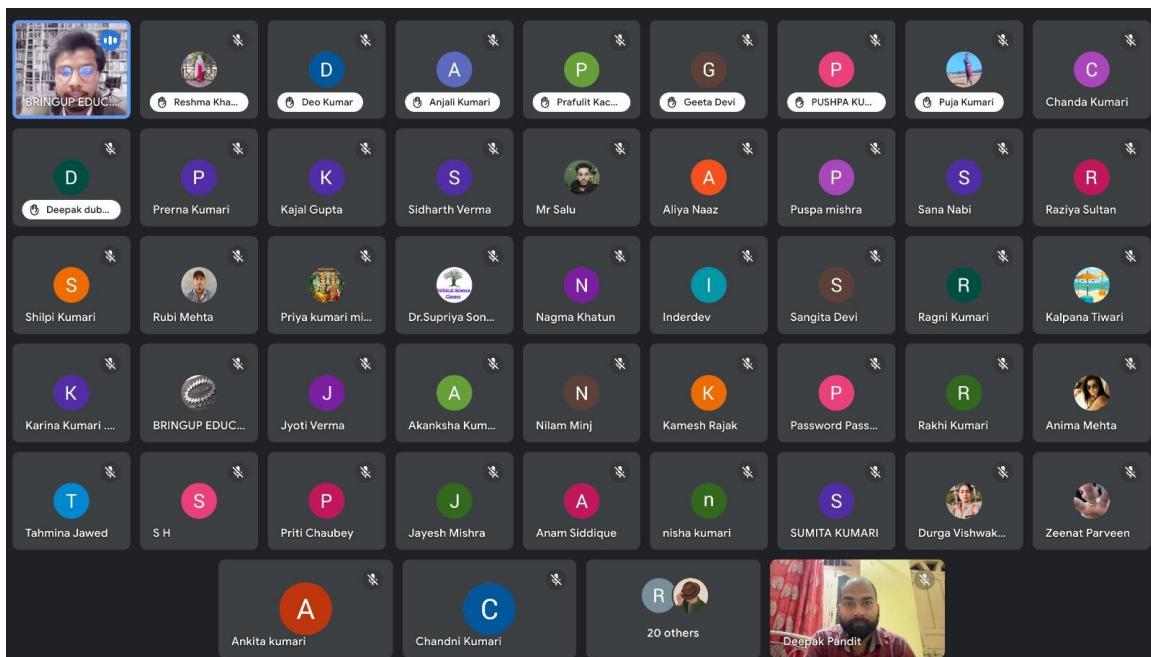

An awareness programme was organized by the Transport Department, Palamu, Road Safety Cell, at YSNM College on 30/01/2023

**Zero Tolerance Policy**

## **ZERO TOLERANCE**

### **Zero Tolerance**

Zero Tolerance in Anti-Ragging" refers to a strict policy against ragging (hazing or bullying) in educational institutions, particularly in India. The goal is to prevent and prohibit any form of ragging, ensuring a safe and supportive environment for all students.

#### **Key aspects of Zero Tolerance in Anti-Ragging:**

1. Strict prohibition of ragging in any form.
2. Severe penalties for those found guilty of ragging, including expulsion or criminal charges.
3. Active monitoring and surveillance to detect and prevent ragging incidents.
4. Support systems for victims of ragging, such as counseling and complaint mechanisms.
5. Awareness campaigns and workshops to educate students about the harmful effects of ragging.
6. Involvement of faculty, staff, and students in anti-ragging initiatives.
7. Regular monitoring and review of anti-ragging measures to ensure effectiveness.
8. At the time of enrolment, the girl students have to fill an undertaking form that they will not commit any such incident of ranking or sexual harassment with any other girl students, otherwise the college administration will be forced to take action against them.

**The objective is to create a ragging-free environment, promoting a culture of respect, inclusivity, and academic excellence.**

## **NOTICE**

This is to inform all the students of that Ragging is strictly prohibited as per orders of Honorable Supreme Court Judgment/Govt./University/AICTE/ UGC. Anybody indulging in Ragging will be severely punished. The punishment includes suspension/dismissal from the roles of the institute apart from prosecuting the indulgent with criminal charges. Any Student found indulged in any act of Ragging which is a subversive of College discipline shall be dealt with very strictly. The Anti ragging Committee is authorized to take strict action against the students indulging in ragging and any such action may also call for cancellation of admission of those students or lodging FIR with local/Police authorities against the students found indulged in ragging.

**"Ragging is a punishable offence, so you are advised to refrain from it"**

# A one day workshop on conservation of environment at YSN Mahila college Daltonganj

MI NEWS SERVICE

DALTONGANJ: Young college girls of the YSN Mahila college Daltonganj express concern for environment and climate. A one day workshop on preserving the planet empowering action for a sustainable future under the umbrella of the IQAC cell of the Yodh Singh Namdhari Mahila college Daltonganj was held today in its well maintained auditorium.

Divisional forest officer Medininagar Soumitra Shukla, deputy director North division of the tiger reserve Palamu P Jena and project planning officer waste management Rahul Anand graced the occasion.

From the side of the NP university there came Dr K C Jha proctor. There was the battery of teachers of this college notably Dr Vijay Kumar Prasad, Dr Mashrique, Dr Shobha, Dr Sarita, D K Pandit etc. Dr Mohini Gupta professor in charge of YSN Mahila college in her brief but

thoughtful address emphasised the preservation of environment and advised the students to take initiative in the preservation and conservation of environment.

Dr Mohini (popular by her first name) said the survival of environment is the mainstay of life on earth. It's less is irreparable she reminded. It's still time to save the environment said Dr Gupta.

A couple of students like Isha (doing post graduate in History), Alia Naz (doing English honours), Priya Singh (doing Zoology honours) etc raised relevant and appropriate questions which were answered by Shukla and Jena in their own simple way. No question of the students was any set aside as

absurd but the two IFS officers looked pretty satisfied that young girls are now giving time and thought to the issues of environment.

Isha asked about solar system while Alia Naz wanted to know if electronic transport is better than gas driven transport. Priya Singh said how people set goals for good house but not for healthy environment. The girls asked the questions half English and half Hindi! Shukla and Jena were attentive to their questions.

DFO Medininagar Soumitra Shukla used homely examples to drive his point home as to how to save environment and climate. Shukla avoided jargons. He was down to earth.
